Patented technology developed through 20 years of research

- Through 20 years of propolis research, we developed a patented [100% water-soluble, alcohol-free propolis extraction technology].
- With no alcohol or emulsifiers, the whole family can enjoy it with confidence.

Rigorous quality management

- We strictly manage every stage of production in accordance with international quality management standards such as FSSC2200 and ISO2200.

FSSC 22000

International Organization for Standardization ISO 22000

Delicious and healthy Propolis everyone can enjoy

- We can manufacture a wide variety of food formats, including liquids, jellies, and powders.
- Leveraging our domestic and international ODM/ODM production experience, we can respond flexibly to ODM and ODM needs.
